

EROSION OBSERVATIONS

Data Worksheet

Scientists keep track of their observations, or data.
Try drawing or writing what you notice as you do each experiment.

Before Erosion Write your observations here!	Draw your observations here!
Small Amount of Water Write your observations here!	Draw your observations here!
Large Amount of Water Write your observations here!	Draw your observations here!

Gradual Water

Write your observations here!

Draw your observations here!

Sudden Water

Write your observations here!

Draw your observations here!

Ice Cube

Write your observations here!

Draw your observations here!

Barely Tilted Surface

Write your observations here!

Draw your observations here!

Extremely Tilted Surface

Write your observations here!

Draw your observations here!

Tap Water

Write your observations here!

Draw your observations here!

Salt Water

Write your observations here!

Draw your observations here!
